on a rese pass such a processing would be de-clared out of order.

Our City Dads are still wreating with that difficult matter of proper drainage and a relief to property convers on South Washington street. At a regular meeting of Council on Monday evening of last week a motion was made that a committee of three be appointed to secretain the cost of putting in a twenty inch tile, commencing at the corner of Fifth and South streets and running to the railroad, a distance of probably two squares. It was the opinion of several members that the cost would not exceed affects himbered dollars and that the work should be done at once by the old Council. The drain now located at the above named place cost the corporation nearly three hundred dollars from which not one par-ticle of good was ever derived. The location is not the proper one and the mere money ex-pended in that direction the worse off the peo-ple will be, and the only way out of the discu-na is to sewer Main street from Eifth, to the surface between First and Second. The cost of such an undertaking would be double that of the one in contamplation, but is the only
